

# 2 Deck Inclined Screeners

## TS2430 2 Deck Screener

14' x 5' Deck Size

### TS2430

With a 14' x 5' (4.2m x 1.52m) screenbox, the TS2430 fits into a unique screener class. It is ideal if you want more from your machine but don't want excessive running costs. In fact, with its superior design this machine can easily produce comparable capacities to some of its larger competitors.

Excelling in a wide range of applications, especially fine sand screening, the TS2430 is amazing customers by the quality and quantity of product it can produce. With an excellently designed hydraulic screenbox linkage system and mesh wedge system, maintenance and mesh changing times are reduced saving you money by reducing downtime.

So, if you want more capacity from your screener but don't need a large machine then the TS2430 is a perfect match. You'll be surprised by the return you'll get from this machine.

### Features & Benefits

- 14' x 5' (4.2m x 1.52m) Screenbox produces capacities comparable to larger machines
- 48" (1200mm) feed conveyor ensures high capacity, high quality screening
- Hydraulic screenbox linkage system ensures optimum screen coverage at varying angles
- This machine works exceptionally well across across a huge range of applications

### Specification

Max Feed Capacity	Engine Size	Top Deck	Bottom Deck	Middle Deck
500 T/H*	CAT 100Hp (75Kw)	4.27m x 1.52m (14' x 5')	3.66m x 1.52m (12' x 5')	-

\*Depending on material density and screen set up

### Dimension Specification

Transport Dimensions			Working Dimensions		
Height	Width	Length	Width	Length	Weight (Est.)
3400mm (11' 2")	2900mm (9' 6")	16,520mm (54' 2")	15,840mm (52')	17,320mm (56' 10")	27,200kgs (59,965 lbs)
